

Army Support Activity Dix “Home of The Ultimate Weapon”

Command Philosophy

- *Treat people the way you want to be treated.*
- *Training and preparing The Ultimate Weapon to win on the battlefield is our proud legacy and it remains our priority of effort today.*
- *Soldier, Employee and Family welfare runs a close second behind training.*
- *Earn and reinforce our reputation for Excellence every day.*
- *Approach and complete every mission, no matter how small or trivial, to the very best of your ability – be consistent.*
- *Good communication with our customers and within our organization is absolutely essential to our success.*
- *Do the right thing even when no one is looking.*
- *Complete honesty is essential in your views, reports, and official actions.*
- *Honest mistakes build character; bad choices in ethical behavior or integrity destroy it, and will be dealt with in a manner consistent with published Policies and Regulations.*
- *Loyalty works up and down the chain of command.*
